Enhanced Dynamic® Moderate Active Awarded Top “Smart Beta” Strategy for 2018 by AsianInvestor Magazine

AsianInvestor magazine reveals the leading fund houses and asset service providers of the region for 2018.

Chicago, IL: [AsianInvestor](http://AsianInvestor.com), the leading Asian financial publication dedicated to the region's asset management industry, has announced **Enhanced Investment Partners' Enhanced Dynamic® Moderate Active** fund was the outstanding performer in its Smart Beta category, according to [eVestment](http://eVestment.com) figures.

The strategy produced the highest overall returns versus its category rivals over three and five years, while ranking Top by Sharpe ratio over five years, and Second and Third by information ratio over five and three years, respectively. It is a quantitative U.S. equity overlay strategy developed to complement institutional equity investment portfolios, employing a variety of U.S. active equity managers.

The strategy is designed to identify performance cycles for stocks by style and capitalization size. Its allocation strategy indicates when it is time to tilt away from an underperforming style or cap size and into an outperforming one, said **Enhanced Investment Partners**.

Equity portfolios are expected to remain fully invested throughout all market cycles, and it does not employ tactical asset allocation or market timing. Investment portfolios using the **Enhanced Dynamic**[®] methodology are expected to derive positive risk-adjusted returns against all relevant domestic equity benchmarks over a full market cycle, said **Enhanced Investment Partners**.

About Enhanced Investment Partners LLC: [Enhanced Investment Partners](#) is a domestic equity investment strategy firm focused upon providing the **Enhanced Dynamic**[®] proprietary domestic equity investment overlay methodology to suitable investment portfolios and organizations. The dynamic portfolio reallocation and rebalancing methodology uses both active and passive investment vehicles, such as separately managed accounts.

Enhanced Investment Partners expects to launch two investment funds utilizing **Enhanced Dynamic**[®] as the core component of the funds.

- The first fund to be offered will be the **Enhanced Alternative Income Fund**, a non-directional, market neutral, alternative income fund intended to compliment the cash management requirements of pensions, corporations, and private equity funds.
- The second fund to be offered will be the **Enhanced Dynamic**[®] **Moderate Active** fund, which utilizes the award-winning strategy discussed in the AsianInvestor article.

Enhanced Investment Partners will reduce offering the **Enhanced Dynamic**[®] **Moderate Active** strategy as an individual separately managed account, except in select institutional and investment consultant-driven relationships.

Additional information may be found at www.enhancedinvesting.com, www.enhanceddynamic.com, and www.enhancedhedge.com; or by contacting Robert Rowe or his partners who are available for interviews and submitting by-lined articles.

Asset Management Awards 2018: The final winners

AsianInvestor revealed the final award winners at our annual Awards Dinner on Thursday. They include Best Asian Asset Manager and Fund House of the Year.

AsianInvestor is pleased to announce the first batch of our Asset Management Awards for 2018. Today we reveal the winning funds by asset class for public markets.

On Thursday we will announce the local investment management awards by country, and after Easter we will reveal the winners of our Asset Service Provider awards, and conclude with our Marquee award winners.

Short articles on each of the below asset class award winner will be featured in our April/May magazine, which will be published in two weeks. Our congratulations to the winners, and many thanks to award winners.
